

City of Fort Collins Recreation Facilities-

Two city recreation facilities offer pickleball. Both have nets. The Fort Collins Senior Center has balls and paddles available for use. The two facilities use slightly different language and have slightly different processes. The Senior Center has both skill level play and “Mixed Play” i.e. for all levels. Northside has “Open Play” which is the same as the Senior Center “Open Play”. The Senior Center has a prescribed rotation system for players (sit in chairs and rotate in by 2 or 4 depending on the number of players waiting, play one game and come out). Northside has no prescribed process. Players have informally adopted 4 in 4 out by stacked paddles.
